Aetrex Fashion Orthotics provide comfort and support for your favorite fashion footwear. These innovative orthotics are ultra light-weight and have a Cobra shape design to fit inside heels, pumps and ballet flats that usually don’t offer support.

Aetrex Fashion Orthotics have a thermoplastic urethane base that helps with shape retention, and features Aetrex’s strategically placed, proprietary Lynco® arch support to help biomechanically align your body. Finally, fashionable heels & flats can feel great on your feet, even after a long day.

**Material Technology:**
Top Cover: **Genuine leather**
Performance Base: **Thermoplastic urethane**
Aetrex In-Style Orthotics are engineered to provide comfort and support for fashion forward footwear. These innovative orthotics are light-weight, flexible, and have a Cobra shape to help fit inside shoes with little or no removable depth.

Aetrex In-Style Orthotics have a thermoplastic urethane base that helps with shape retention, and features Aetrex’s strategically placed, proprietary Lynco® arch support to help biomechanically align your body. Finally, stylish shoes can feel great on your feet, even after a long day.

Material Technology:
Top Cover: Genuine leather
Performance Base: Thermoplastic urethane
3/4 DRESS SERIES
**Aetrex 3/4 Dress Orthotics** are designed to fit in footwear with narrow toe areas or no removable depth. These time-honored orthotics are ¾ in length offering comfortable forefoot freedom and much needed support for your professional attire.

The rich leather top cover cushions the foot while the suede base helps prevent sliding inside your shoes. This orthotic offers Aetrex's strategically placed, proprietary Lynco® arch support to help biomechanically align your body and prevent common foot conditions such as Plantar Fasciitis, Arch Pain and Metatarsalgia.

**Material Technology:**
- **Top Cover:** Genuine leather
- **Center Cushioning:** Cork rubber blend
- **Performance Base:** Suede

Also available in children & youth sizes. See price list for details.
Aetrex Low Profile Orthotics are designed to provide maximum comfort and support in men’s footwear styles that offer little or no removable depth. These innovative orthotics are engineered with an ultra slim profile, allowing your feet to feel comfortable in your shoes at all times.

Designed with a soft moisture-wicking microfiber cover, Aetrex Low Profile Orthotics feel great against your foot and promote a healthy environment in your shoes. Aetrex’s strategically placed, proprietary Lynco® arch support helps align your body to help prevent common foot conditions such as Plantar Fasciitis, Arch Pain and Metatarsalgia.

**Material Technology:**
- Top Cover: Soft microfiber
- Performance Base: AeroCell™ polyurethane

**Rearfoot Options:**
- Cupped: Cushions and stabilizes rearfoot. Recommended for medium and high arch feet.
- Posted: Controls over-pronation and balances rearfoot. Recommended for flat or low arch feet.

**Forefoot Options:**
- Neutral: Without metatarsal support for those not suffering from ball-of-foot discomfort.
- Supported: Metatarsal support comforts ball-of-foot & redistributes weight from metatarsal area.
FLIPS, SLIDES & CLOGS
Aetrex Flips™, Slides & Clogs are designed with the most important features from Aetrex's Orthotic line. The anatomical shape aligns with your foot's anatomy to ensure cushioning and shock absorption for every millimeter of your foot. The built-in Lynco arch support is strategically positioned to help prevent pronation, keep your body properly aligned, and provide biomechanical efficiency. A soft met cushion reduces pressure at the ball-of-the-foot to help prevent the forefoot discomfort often experienced in traditional flip flops and slides.

Aetrex Flips, Slides & Clogs are made from UltraSKY™ injected EVA to provide extreme cushioning, shock attenuation and durability. And finally, the toe post that can be so uncomfortable in so many flip flops, is specially designed with super soft foam to keep your toes comfortable all day long. With Aetrex Flips & Slides you'll feel like you're walking on air and enjoy the most comfortable footwear experience on earth.

FEATURES:
• Strategically placed, proprietary Lynco® arch support for balance and alignment
• Dual density outsole provides extra cushioning
• Soft metatarsal cushion reduces stress at forefoot
• Extra soft toe post for comfortable wear
• Water friendly, so light they float
